2. citations and explanations (Rule 70.7)

Claims 1-6, 8 and 12 remain lacking an inventive step under PCT Article 33(3) as being obvious over Logan et al (US Patent No. 5,721,827) in view of Wachob (US Patent No. 5,155,591).

Claims 7 and 9-11 remain lacking an inventive step under PCT Article 33(3) as being obvious over Logan et al and Wachob as applied above and further in view of Bushnell (US Patent No. 4,071,697).

Applicant's representative has amended independent claim 1 to recite "an advertiser manually selecting an individual prospect and an individual" and argues that the references taken alone or in combination teach an automated system for matching advertisements to many prospect profiles and are different from claim 1 as amended.

In response, the steps of selecting an individual prospect and an individual commercial are clearly taught by the references taken alone and/or in combination. Doing so manually would have also been obvious to the skilled artisan whenever there is a system failure in the systems of Logan and/or Wachob so that business operations would continue.
